Commodity Fundamentals Forum – ‘BULLION’
Tuesday October 10, 2023 from 4:00 p.m. to 5:30 p.m.

Dear Sir/ Madam,

From the time of ancient civilizations to the modern era, gold has been the world's currency of choice. Today, investors buy gold mainly as a hedge against political unrest and inflation. In addition, many top investment advisors recommend a portfolio allocation in commodities, including gold, in order to lower overall portfolio risk.

There is, therefore, a perceived need to have a sound understanding of the market fundamentals to be able to read the market signals reasonably correctly; and thereby make informed trading and investment decisions. This is especially important in the present times characterised by geopolitical uncertainties, growth concerns, currency gyrations, price volatility and so on.

In this background, IMC Chamber of Commerce and Industry in association with Multi Commodity Exchange MCX is organizing an online seminar. The program details are:
