

Online Seminar on Emerging Agricultural Market Prospects
Monday, May 10, 2021 from 4.00 pm to 5:30 pm

Agriculture has been a beacon of hope in these tough times of Covid-19 pandemic. As the 2020-21 Rabi season ends and 2021-22 Kharif season begins, farm related activities are once again the focus of attention. The Onset and progress of Southwest monsoon impacts major agriculture crop prospects in our country. The India Meteorological Department has forecast a 'normal' monsoon for 2021. Normal rainfall should boost our rural economy, help harvest decent Kharif crops and contain food inflation.

To crystal-gaze into the emerging scenario, the Agriculture and Food Processing Committee of IMC Chamber of Commerce and Industry together with NCDEX IPFT, India's leading agri-commodity derivatives exchange, is organizing an online seminar.

Following are the details:

Topic: Emerging Agricultural Market Prospects

Day & Date: Monday, May 10, 2021

Time: 4.00 pm to 5:30 pm

Online Platform: Zoom

A panel of experts will discuss SW monsoon forecast, outlook for major Kharif season crops and steps that would boost output and prices. Policy initiatives needed to advance growers' interest will also be discussed.

Kindly note there is NO PARTICIPATION FEE. However, registration is mandatory. On receiving a registration request, VC details will be provided. For registrations and other details please contact Ms. Anita Naik at anita.naik@imcnet.org Or visit IMC website: <https://www.imcnet.org/events-1180>.

We do hope you will be able to seize this opportunity and participate in this event by registering.
