

Online Seminar on “***Farm Outlook and Price Risk Management***”  
Monday November 23, 2020 from 4.00 p.m. to 5.30pm.

**Dear Sir/ Madam,**

Although agriculture accounts for nearly 16 percent of the country's GDP and employs more than 50 percent of the workforce, it operates under multiple challenges in production, processing, marketing and trade. Risk is an integral part of agriculture. With the changes in the risk environment and tools available to manage the risk make it a compelling reason to engage in risk management education. Some risks like, production, price, institutional etc are directly affected to the prices of input/output and quality / quality of the production.

India is among the apex producers of several commodities and has a long history of commodity trading. There are different (global and domestic) drivers of the commodity market which impact prices. By their very nature, commodity markets are volatile. Therefore, it is necessary to manage their price risks through hedging which is an insurance against adverse price movement.

In this background, Agriculture and Food Processing Committee, IMC Chamber of Commerce and Industry is organizing an Online seminar called “***Farm outlook and Price Risk Management***” on Monday, November 23, 2020 from 4.00 pm to 5.30 pm.

The virtual meeting will be on Zoom. There is NO Participation Fee; but registration is necessary. On receiving a registration request, VC details will be provided. For registrations and other details please contact Ms. Anita Naik at [anita.naik@imcnet.org](mailto:anita.naik@imcnet.org) Or visit IMC website <https://www.imcnet.org/events-924>

We do hope you will be able to seize the opportunity and participate on November 23, 2020. It will be a knowledge enriching experience.

**Ajit Mangrulkar**  
**Director General**
