**"Government Initiatives: New Opportunities for Commodity Market"**

Wednesday, March 10, 2021 (4.00 p.m. to 5.30 p.m.)

**Dear Sir/ Madam,**

The government has recently unveiled several policy initiatives, massive investment proposals especially in infrastructure and interesting tariff changes. Many of these are expected to have an impact on the commodity markets covering especially precious metals, base metals and select agri commodities.

In the wake of the above, we believe, newer investment / trading opportunities are opening up in the commodities sector. There is a need to raise awareness among market participants about the positive impact of the latest developments and educate them about investment / hedging.

It is in this background, IMC in association with MCX-IPF is organising the seminar on: "*Government Initiatives: New Opportunities for Commodity Market*" on March 10, 2021 starting 4.00 pm.

The key Speakers for the event are

- Mr. Madan Sabnavis, Chief Economist, Care Ratings Ltd,
