

**IMCs' Knowledge Skill and Education Committee  
Presents**

**An Exclusive Study in Maharashtra Exhibition**

**Day and Date: Saturday, April 27, 2024**

**From: 10:00 a.m. to 6: 00p.m.**

**Venue: Walchand Hirachand Hall, 4<sup>th</sup> Floor, IMC Building, Churchgate, Mumbai**

Obtaining a quality education is the foundation for a child's professional growth and success. Maharashtra has particularly made major exceptional progress towards increasing access to quality education at all levels.

With several public and private esteemed institutions in Maharashtra offering an array of courses which offer a global curriculum under a variety of academic programs, including undergraduate and graduate degrees, certificates, and professional training programs. These programs provide students with a structured curriculum and a set of learning objectives to achieve.

Today, educational institutions also provide our students with a holistic environment where they not only excel in academics but are also provided with the required infrastructure and specialized training in areas of sports, art and other creative mediums.

It does not stop there, almost all institutions have been providing excellent internship opportunities, hostel facilities and placements to their students.

At IMC, it is our constant endeavor to reach out to the youth and present them with equal access to the best emerging opportunities and avenues available for their academic and career growth within the state.

In the interest of the student community, IMC through its **Knowledge (Skill and Education) Committee** has curated a one of its kind exclusive **Study in Maharashtra Exhibition**, on **Saturday, April 27, 2024** from **10:00 a.m. to 6:00 p.m.** at the **Walchand Hirachand Hall, IMC Building, Churchgate, Mumbai - 400020.**

This unique Exhibition will have 20 premium higher educational institutions of excellence from the state of Maharashtra congregate together and provide an excellent opportunity to prospective students to learn about different college programs, courses, eligibility, application processes, scholarships and their requirements, on the spot admissions, student guidance, information on the course fee structure, accommodations, internships, placements and the latest trends and developments in global education all at one place!

The main aim of the Study in Maharashtra Exhibition is to showcase the wide variety of specially designed and internationally accepted educational opportunities that are available within the state at affordable prices.

This is an excellent and effective opportunity for students and their parents / guardians to get direct access and interact with the senior representatives from eminent universities within

the state and get acquainted with the best possibilities of pursuing their higher studies closer to home at affordable costs.

An exclusive panel discussion will be organized on the National Education Policy, where the new recommendations will be discussed in detail and the concept of effective governance of schools and educational institutions will be outlined which will provide vital information and clarity to students on the new policies and practices in the educational system.
