The recent decisions of the GST Council headed by Hon'ble Finance Minister Smt. Nirmala Sitharaman mark the beginning of GST 2.0 - a forward-looking, simplified, and more equitable taxation system designed to benefit businesses, traders, consumers, and the economy at large.

The revised framework introduces rationalised rates, targeted exemptions, and clearer structures for ease of compliance, while ensuring balance between revenue needs and growth facilitation.

For businesses of every size, professionals, and industry stakeholders, understanding the implications of GST 2.0 is crucial. This webinar will provide first-hand insights into the changes, sectoral impacts, compliance requirements, and opportunities, helping participants stay ahead of evolving tax policies.

The session will feature a panel discussion and interactive Q&A, offering practical clarity on how GST 2.0 will influence day-to-day operations, cost structures, and future planning. It promises to be a highly valuable learning opportunity and a must-attend program for all who wish to stay well-informed and compliant in the new regime.
